

Annual Report

2007-2008

HARIRAJ CHARITABLE TRUST

Note from the Trustee

2007-08 has been the most eventful year since our inception. We have seen the activities and reach of our organization grow by leaps and bounds. It has been amazing, hectic, stressful and eventful all in one!

When we started our journey in 1993, the goal was very simple: to act for the empower persons with education and health. Through the years, we have understood, accepted and faced the challenges in working towards this economic independence. We have learnt to work with the challenges posed by awareness amongst education and health.

Word of thanks to everybody: our students, our passionate staff, individual donors who have contributed freely, corporate donors, volunteers who have given their precious time.

Please send us your suggestions, comments and response for this annual report.

Suresh Gohil
Secretary,
Hariraj Charitable Trust – Amreli

Executive Summary

Profile

Hariraj Charitable Trust – Amreli is a non-profit organisation working tirelessly since its inception from 1993 towards the economic independence and health. We are working to cater to the needs of education and health.

Our major thrust areas are education, health and employment (vocational Training), built Majdur Avas etc.

Our impact and program

- **Education to those children who are unable to get primary education**

Through our own program we are working to give primary education to children who are child worker or coming from labors family.

Sardar Vidhyalaya – Damanagar

The Sardar vidhyalya was established in the year 1998 at Damanagar village of Lathi block. In Sardar vidhyalya, primary education {std. 1 to 7} is given to the children.

School has organized the celebration of Republic day, Independence Day, teachers' day, Navratri celebration, Gandhi Jayanti etc. To check the student's skills General Knowledge test, elocution competition, essay competitions were arranged.

- **Towards child Development**

Children below 15 years constitute about 40% of the total population in India. If all of them are happy and healthy, they can make a positive contribution to the progress and development of our country. But reality is that many children who do not have access to health services, care, protection and education. In our society we found that the girl child is not allowed to be born and if it born, it has not given the same opportunities as boy. Children are exploited, abused, sold, punished and made to work in hazardous industries. In other words millions of children in India do not enjoy their childhood. Government has some laws for to protect children from child labour but the less awareness of this laws remove child for their rights. Hariraj Charitable Trust believes in and advocates children's basic right of life like Right to Development (education), Right to Protection, Right to Survival, Right to participation.

- **Reproductive & child health program**

The organization is working with the object to improve the health of women and children and to make women aware about sexual health by connecting with the mother NGO Samagra Vikas Trust. In the different villages like Chital, Timba, Machiyala, Jaswantgadh and Giryia this programme had been started.

This program is started in Khambha also. This region is nearest to the forest border where is lack of health services and its awareness and education level is also in people. We did basic survey of this areas Samthiyala centers 10 villages.

To continuous this program with our volunteer we spread information about Polio vaccination and other vaccine, which is very important to infant children and pregnant women.

- **Namak Avas**

Namak Avas is a project for Agarias. Particularly at the time of agarias stays in a coastal area they have not proper shelter. On viewing that we think to establish Avas for them in the coastal areas. We are getting progress in building these types of Avas in the coastal village. 60 Avas is targeted to build up. This Avas is building with the help of Udhog Commissioner Gandhingar.

- **Increase employment opportunity through vocational training**

We are finding that our vocational training results very often. Many women get employed. Some of them are able run their own business.

- **Increase in gender awareness**

Through all of our work we try to remove imbalance in gender. We always discuss about it in society and aware them.

- **Increase in innovative solutions like SHGs**

The situation of poor are very bad in especially villages because they have no enough sources for earning and that's why they are very poor in financially it means lack of education is also a problem. We have been working to form their SHGs through which they can save their money and also they pay their free time to do some activities for income generation.

- **Increase in reading hobbies of children**

We know that books are best friend of every one and thus we established a library for children. They everyday come here and read whatever they have like. For this we have books like comics, picture story, poem, and other materials for children.

- **Increase understanding of water harvesting and environment.**

Nowadays people get aware about water harvesting and as a result of this problem of water shortage is removing. In this area we spread information about water harvesting, land development and water recharging. Our team also inform people about salinity of land and give advise to those who want to remove it.

Projects undertaken by the NGO in the last three years.

Project/Programme	Target area	Beneficiary groups	Budget	Duration	Department
Reproductive Child Health Programme	Amreli District's five Village	1500 Children	285000	2001-2005	Health Department
