This month we have successfully completed the endline assessments for 125 children across 5 centres. The children from Bhankodar and Bherai centres displayed their creativity by making beautiful paper bags and bird houses out of waste material. Children participated in the celebration of Dhuleti festival, embracing the spirit of the season with vibrant energy.

This month, we successfully completed the Foundation course of the 'Gender Education' program in Piplava Village, engaging 40 adolescent boys. Additionally, in the Action course, we have completed modules 9 and 10. Our current focus is preparing the adolescent boys to conduct Focus Group Discussions (FGDs) for the upcoming live Action event, working closely with the community.

A health camp was organized by the organization for primary school children on 05/03/2025 in Segva village of Vadodara district. In this camp eye check up, blood group and general health check up of the school children were done.

Biochar training was organized on 06/03/2025 for farmers of Piplia, Bujetha, Tanka, Limpur, Talavpur and Baglipur in Bujetha village and for farmers of Bhumsiya, Sompura and Akoti villages in Bhumsiya village. Depth understanding of biochar was provided to the farmers, the identity of biochar, four different methods of making biochar (1) heap method, (2) cone pit (3) drum method and (4) cone tiki method were discussed. How does biochar work? PH value and effective benefits for cotton plants. Biochar with Jivamrut, neem leaves, vermi compost and soil layering should be kept for 1 - 2 months, after which information was given about its use in the field. After that, IEC material was distributed and a practical demo of the cone pit method was shown to the farmers.
