Launch of CLA Program in Amreli District

This month marked a significant step forward in enhancing educational support for children with the successful implementation of the Center for Learning Assistance (CLA) program in four villages (Bhankodar, Bherai, Kovaya and Mota Machiyala) of Amreli district. We have been enrolled 100 children in this program following a thorough and respectful parental consent process. Our LAs also conducted baseline assessment to understand the children's current status and need. This foundational work sets the stage for impactful and measurable progress in the months ahead.

We have also celebrated World Environment Day & International Yoga Day at our center and the children happily participated, guided by their dedicated LAs. They enjoyed learning and practicing basic Yoga.
